# MOHAMMAD HOSSEIN AZADI

## Front-end developer

## ABOUT ME

Enthusiastic and self-motivated Front End Developer with a strong foundation in React, JavaScript, HTML5, and CSS3. Passionate about creating responsive and user-friendly web applications. Adept at utilizing Tailwind, Bootstrap, and Git for efficient development processes. Eager to contribute technical skills and a commitment to quality design in a collaborative team environment.

## WORK EXPERIENCE

### ketabYar کتاب یار

A Next.js-based platform for easy book search, filtering, and reservation with a responsive UI.

Features: Quick book search, reservation with time and city selection, secure user account management.

Technologies: Next.js, Next auth, Shadcn, TypeScript, Prisma, Tailwind CSS.

### SPY

I create and developed a game called spy at [spy-llazddl.vercel.app](https://spy-llazddl.vercel.app). This game needs 4 friends to play with and ...

Next.js, Redux-Toolkit, Tailwind, Shadcn-UI

### AZD-Restaurant

I created a fully functional restaurant website, viewable at <https://azd-restaurant.vercel.app/>, which showcases a modern, user-friendly design tailored for an optimal dining experience. The site includes features such as a dynamic menu display, reservation system, and responsive design to enhance user engagement. This project demonstrates my proficiency in front-end development and my ability to deliver a seamless digital experience for businesses.

React, React-context, CSS

### Portfolio

I developed a personal portfolio website, accessible at <https://mohammad-hossein-azadi.vercel.app>, showcasing my skills and projects. The site features a clean, responsive design and highlights my experience in web development, including interactive elements and a dynamic layout. It serves as a comprehensive platform for potential employers and collaborators to explore my work and achievements.
